In-House Data Review

## Bring your eDiscovery in-house with the eClaris Electronic Discovery Appliance.

The eClaris Electronic Discovery Appliance is a cost-effective, secure processing engine that allows law firms and corporations to interrogate, index and search data *in-house* from their own servers.

- Can process up to 50 gigabytes of data per hour.
- Provides Unicode / Multi-Language support.
- Includes evidence collection, processing, hosting and production features.
- Clients choose either a subscription or a “pay-per-click” model.
- Law firms can bill their clients directly for particular eDiscovery.
- eClaris provides background support and can supply additional guidance as desired.
